Subject: FW: quote?

I think this is where I got my cost estimates from. The website is still viable.

Hi Linda,

Sorry for the delay. I've priced up a few unit prices that have the materials, freight and installation built in so you should be Ok to get a basic idea of what the costs would be however, it's always best to get a final plan in mind and then get a firm number.

30" deep x 60" long free standing table with telescoping legs and epoxy resin top = \$ 907
60" wide sink base assembly with rear fillers, 24" x 16" x 8" resin sink and resin top = \$ 1,964
E41M3036-00 mobile base unit with finished back and epoxy resin top = \$ 1,173

Budget for (5) tables, (4) mobile bases and a single sink base = \$ 11,191 +/-

Please give me a call if you have any questions,

Jeff

Subject: quote?

Hi Jeff:

Any luck with coming up with a quote for the MA State Lab? Let me know if there's any info from us that you might need.

Thanks,
Linda
